## Why Choose Raifest?

Raifest stands out as a trusted name in aquaculture nutrition, offering scientifically formulated fish feed that promotes faster growth, better immunity, and higher fecundity. Our commitment to quality and sustainability ensures that every feed is made from safe, high-grade ingredients that support healthy fish and responsible farming. Backed by proven performance and continuous innovation, Raifest empowers fish farmers with reliable results and expert support every step of the way. Choose Raifest—for healthier fish, higher yields, and a better future in aquaculture.

### About Us

With the goal of providing premium, specialized pet food for ornamental fish, Mr. Sabu John founded Raifest Group in Amballoor, Ernakulam, Kerala, India, in 2019. We prioritize sustainability, quality, and scientific formulas with the goal of becoming a global leader in pet nutrition. Through reliable customer service and distribution, Raifest has quickly gained the trust of people all throughout India. Using natural ingredients that promote healthy digestion, color development, and growth, we create customized feed for every type of ornamental fish.

### Our Vision

To be a global leader in aquaculture nutrition, recognized for pioneering excellence in fish feed that supports sustainable farming, healthier aquatic ecosystems, and a thriving blue economy.

### Our Mission

At Raifest Fish Food Group, our mission is to enhance aquatic life through high-quality, nutrient-rich feed that promotes optimal growth, health, and fecundity in fish. We are committed to sustainable aquaculture, continuous innovation, and delivering trusted solutions that empower fish farmers and contribute to global food security.

### Expert Team. Quality Feed

Driven by experience and precision, our team ensures superior fish nutrition in every pellet. From formulation to final product, excellence is at the core of everything we do.

### Tailored Nutrition for Every Stage

Our feeds are designed to support all life stages—from fry to brood stock—ensuring optimal growth, survival, and reproductive success.

### Premium Ingredients & Superior Production

We use premium ingredients and advanced processes to ensure clean, consistent, and nutritionally rich fish feed. Every batch is crafted for purity, performance, and peace of mind.

### Advanced Formulation Technology

Crafted with cutting-edge formulation techniques, our fish food delivers optimal nutrition for faster growth, enhanced color, and stronger immunity.

## RAIFEST

### Advantage:

### Premium Nutrition, Trusted Results

#### • Enhances Natural Color & Healthy Growth

Our nano and micro pellets are enriched with plant-based pigments and high-quality marine proteins that help bring out the vibrant hues in your fish while supporting steady growth.

#### • Tailored Diets for Every Species

From African cichlids to ornamental goldfish, each formula is uniquely crafted to meet the specific nutritional needs of various freshwater and marine species.

#### • Clean Water Technology

Formulated to reduce waste and maintain clear, healthy water—ensuring a stress-free environment for your aquatic pets.

#### • Proudly Made in Kerala, Delivered Across India

With locally sourced ingredients and global standards of production, RAIFEST is trusted by breeders, hobbyists, and professionals alike.

#### • Tested & Approved by Experts

Each formula is backed by science and tested for performance, using the latest research in fish nutrition and aquatic health.

# Our Product Features & USP

## Power-Packed Nutrition in Every Bite

Formulated with essential amino acids, natural vitamins, and omega oils.

## The Color Guru

Includes natural color enhancers like spirulina, astaxanthin, and paprika oleoresin.

## No-Brainer Storage

Long shelf life. Moisture-proof packaging for hassle-free storage.

## Eco-Conscious Manufacturing

Locally sourced ingredients. Sustainable processes.

## Slow-Sinking, Non-Clouding Formula

Designed to sink slowly and stay intact, ensuring clean water and efficient feeding.

## Scientifically Backed, Field-Tested

Developed with expert input and tested in real-world conditions for proven results.

# Our Products

## Product Categories

### Betta Jot

Raifest Baby Feed is specially formulated to significantly enhance fecundity in fish species. This improvement is achieved through faster growth rates, a higher number of embryos, and an improved feed conversion ratio, making it an essential choice for hatcheries and breeding programs aiming to increase reproductive success.

### Oscar Jot

In population ecology, understanding fecundity is essential for tracking population growth trends and dynamics. A feeding that improves fecundity can play a vital role in increasing breeding efficiency and sustainability. Specially made for fries or babies. Helps to rapid growth, higher survival, and immunity. It contains high protein and an indispensable amino acid profile.

### Guppy Jot

Highly nutritious feed makes fishes healthy, is easy to digest, and gives high survival.

### Micro Pellets

Raifest Micro Pellets are a highly nutritious, color-enhancing feed specially developed for small to large cichlid species, including Frontosa, and all types of African and Malawi cichlids.

# Brood Mate

special feed prepared for brood stock.

It significantly increases fecundity and produces a successful batch of eggs and active sperm. Results in spontaneous healthy fry or babies

## Cichlid Pellets

Upgrades health and growth, gives easy digestion, and keeps us in an active mood. Mainly for Oscars, Flower Horns, African Cichlids, and morphs, etc.

## Nano Pellets

Promote vibrant colors and immunity. It is easy to digest and helps healthy growth for ornamental fishes like guppies, tetras, bettas, etc.

## 4Guppy Feed

Highly nutritious feed makes fishes Healthy and easy to digest, and it gives high survival.

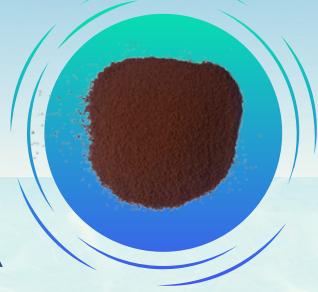

## White Fish Feed

Having all other qualities of other Raifest foods except in making coloration. A very special feed prepared with correct mixing to sustain the white color in white-colored fishes.

# Insect Protein Feed

This feed mainly contains insect protein from insect extracts and so helps with higher growth and immunity.

## Prinz Pro Feed

Prinz Pro is a premium ornamental fish food specially crafted for vibrant health, faster growth, and enhanced color in a wide range of tropical and community fish. Formulated with high-quality fish meal, insect meal, krill oil, and krill meal, this diet provides a rich source of natural protein and essential omega-3 fatty acids to support optimum development and energy.

Paprika extract works as a natural color enhancer, bringing out the vivid reds, oranges, and yellows in your fish without artificial additives. Enriched with garlic extract and probiotics, it boosts immunity, improves digestion, and enhances feed conversion.

Whether you're a hobbyist or a breeder, Prinz Pro is the ideal daily feed to ensure the well-being, vitality, and beauty of your aquatic pets.
